Art Unit: 1773

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Remus Fetea on April 14, 2004.

The application has been amended as follows:

- Claim 18, line 7: after "circuit", the following phrase was inserted: ", wherein said at least one layer of a nonmagnetic material is located between said layer with a predetermined magnetic permeability and said at least one thin magnetic layer with a magnetooptic effect".
- Claim 26, line 7: after "circuit", the following phrase was inserted: ", wherein said at least one layer of a nonmagnetic material is located between said layer with a predetermined magnetic permeability and said at least one thin magnetic layer with a magnetooptic effect".

Reasons for Allowance

3. The present claims are deemed allowable over the references of record since the references of record fail to disclose or render obvious a magneto-optic read head meeting applicants' claimed structural limitations.

Application/Control Number: 10/049,910

Art Unit: 1773

While the prior art of record disclose a magneto-optic read head comprising a single layer soft magnetic layer (i.e. applicants "layer with a predetermined permeability"), the prior art of record fails to teach or render obvious either the inclusion of a reflecting layer "between the at least one layer of a nonmagnetic material and the layer with the predetermined magnetic permeability" (claim 18), or the use of a laminated structure meeting applicants' claimed limitations for the "layer with the predetermined permeability" (claim 26).

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin M Bernatz whose telephone number is (571) 272-1505. The examiner can normally be reached on M-F, 9:00 AM - 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul Thibodeau can be reached on (571) 272-1516. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
